

View Your Pet at IADLPDCRS

Android OS Directions:

First you will need to download the viewer app to your phone from Goggle Play.
It is called **iDVR-Pro Viewer**.

You can also follow this link on your computer:

<https://play.google.com/store/apps/details?id=cctvcamerapros.iDVRPROViewer&hl=en>

Once the application has been installed connection information will need to be entered.

DVR/NVR Nickname: Select a nickname that suits you.

URL: iadlpdc2016.dvrlink.net

HTTP Port: 8080

RTSP Port: 5554

DVR/NVR User ID: Info supplied separately.

DVR/NVR Password: Info supplied separately.

Auto Login: Select checkbox

Be sure to select **Save**

A screenshot of the iDVR-PRO Viewer app's 'Add DVR/NVR' configuration screen. The screen has a dark header with the app's icon and name. Below the header, the title 'Add DVR/NVR' is displayed. The form contains several input fields: 'DVR/NVR Nickname' (empty), 'URL' (filled with 'iadlpdc2016.dvrlink.net'), 'HTTP Port' (filled with '8080'), 'RTSP Port' (filled with '5554' and highlighted with an orange border), 'DVR/NVR User ID' (empty), 'DVR/NVR Password' (empty), and a checked 'Auto Login' checkbox. At the bottom, there are 'Cancel' and 'Save' buttons.
