

During this difficult time, we know how stressed out everyone is. The last thing we want you to worry about is your beloved pet and their well-being. We are offering \$15 daycare days to anyone who is required to continue to work during this time. As long as your pet has the following vaccinations, they are welcome at our facility: Canine Influenza, Bordetella, DHPP/DAP, Leptospirosis, heartworm treatment and negative test within 12 months and flea and tick treatment. We also offer a Pet Taxi service to pick up and/or drop off your pet should you require assistance. In addition, for those who have elderly pets, pets without vaccinations, or pets that are unable to come to the daycare facility, we do offer in home visits.

****Please note, that if you have been diagnosed with Covid-19 or have been exposed to an individual diagnosed with Covid-19 (aside from issues directly related to your occupation), we request that you do not enter the daycare facility and unfortunately we will be unable to have your pet at the facility. While there is absolutely no evidence that Covid-19 is transferrable to animals, there is a remote possibility of the animal carrying the virus on their body into the facility. In addition, we will be unable to do in home visits.**
