

To all our dedicated healthcare workers, we know how tirelessly you are working to keep us safe. We therefore have initiated \$15 daycare days for any healthcare worker's furry babies. In addition, we know that you may be required to stay at work at a moment's notice. We are offering free Pet Taxi service to and from our facility to board your pet while you are required to stay at work. Depending on the length of time you will need to board your pet, we will work out some kind of deal for you. In addition, we are willing to leave it open ended until you have more information. The only thing we need from you is a person to meet us at your home or a key to enter your home to get your pet. In addition, if you have pet food, toys, etc. you would like us to take, we can pick those up too. If you are unable to gather items for us to take, we can purchase food for your pet at a minimal cost to you.

**\*\*Please note, that if you have been diagnosed with Covid-19 or have been exposed to an individual diagnosed with Covid-19 (aside from issues directly related to your occupation), we request that you do not enter the daycare facility and unfortunately we will be unable to have your pet at the facility. While there is absolutely no evidence that Covid-19 is transferrable to animals, there is a remote possibility of the animal carrying the virus on their body into the facility.**
